PROFESSIONAL SUMMARY

Passionate Software Engineer skilled in full-stack web applications, clean architecture, and problem solving. Eager to contribute to innovative tech teams in Tamil Nadu.

TECHNICAL SKILLS

- **Core Languages:** Python, SQL
- **Frameworks & Web:** React, Node.js, Tailwind CSS
- **Tools & Practices:** REST APIs, Git

PROJECTS & ENGINEERING EXPERIENCE

Tamil Nadu Live Job Radar & Autonomous Applier System

[Full-Stack Developer]

Technologies: Node.js, Express, Firebase Firestore, Playwright, Tailwind CSS

- Built an autonomous radar pipeline ingesting 350+ regional engineering vacancies across Tamil Nadu tech hubs.
- Engineered background scrapers with multi-district concurrency, exponential backoff, and Firestore persistence.
- Designed real-time ATS keyword relevance scoring and 1-click tailored application dispatch.

Enterprise Candidate Automation & Interview Tracker

[Backend Engineer]

Technologies: Python, REST APIs, IMAP Protocol, Regex, SQLite

- Developed an autonomous inbox monitoring engine parsing interview invitations and status changes.
- Integrated dynamic PDF compilation adhering to strict ATS single-page parsing standards.

EDUCATION

B.E. Computer Science & Engineering

2025 Batch

Anna University (CEG), Chennai • 8.6 CGPA

CERTIFICATIONS & KEY STRENGTHS

- Verified Problem Solving & Data Structures Foundations
- Full-Stack Web Development & Modern API Design
- Native Familiarity with Tamil Nadu Tech Corridor (Chennai OMR, Coimbatore Tidel Park)
