PROFESSIONAL SUMMARY

Self-motivated fresher software developer with a strong passion for web scraping, browser automation, and AI integrations. Eager to contribute and grow in a fast-paced tech environment. Quick learner with hands-on experience in building real-world automation tools and full-stack web applications.

TECHNICAL SKILLS

- Python
- JavaScript
- HTML & CSS
- SQL
- Playwright (Browser Automation)
- Web Scraping (BeautifulSoup)
- AI Integration (Gemini API, Groq)
- Git & GitHub
- REST APIs
- Flask
- Telegram Bot API
- Linux / Docker

PROJECTS

Autonomous Job Application Bot

Built a fully autonomous Telegram bot that scans 11+ job channels, uses Gemini AI to filter fresher roles, and auto-fills application forms using Playwright. Deployed 24/7 on Hugging Face Spaces.

Tech: Python, Playwright, Gemini API, Telegram Bot API, Flask

Social Media Auto-Poster

Developed an automation pipeline that generates AI content and automatically posts to Instagram, YouTube, and Pinterest using authenticated browser sessions.

Tech: Python, Playwright, Google APIs, Telegram Bot API

AI News Canvas Generator

Created a tool that fetches trending news, summarizes it using AI, and generates visually rich HTML/image canvases for social media.

Tech: Python, HTML, CSS, Gemini API, Pillow

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science

Anna University Affiliated College - Tamil Nadu, India | Graduated: 2024

CERTIFICATIONS

- * Python for Everybody - Coursera
- * Web Development Bootcamp - Udemy
- * Google AI Essentials - Google
